FEEDBACK FROM TRAINEES

The participants found the workshop on “Entrepreneur Development and Skill Training for Ripening Chambers” very informative and felt that more workshops like this should be organized by NCCD. The information given by experts and faculty was a great learning experience, giving them an overview of the fruit ripening sector too.

They were pleased to visit Sahil Fruit Ripening Store, Fatehabad as they got the chance to learn the ripening process and to experience the Preloading, Sorting, grading, and operation and control of ripening chambers. The trainees found the program is a practical hand on experience and helpful in understanding the operations of a ripening chamber and developing their entrepreneurial skills.

FEEDBACK FROM FACULTY

- The faculty was very keen to spread awareness about Entrepreneur Development and Skill Training for Ripening Chambers
- They appreciated the efforts of NCCD.
- They thanked NCCD for organizing the visit to Sahil Fruit Ripening Store which was an excellent learning experience for the students as well as the faculty.
- They wanted the training to have the knowledge of entrepreneurial development & skill training.
- They want to have this type of training program every year in their place.

PRESS NOTE

Entrepreneur Development and Skill Training for Ripening Chambers

DHO, Fatehabad, Haryana. As per the agenda of the Hon'ble Prime Minister of India, Mr. Narendra Modi, Agriculture is the driving force of the economy. The government is laying special emphasis on development of the agriculture sector and encouraging the citizens to come up with projects and businesses to support this sector. The National Centre of Cold Chain Development (NCCD) has introduced a Two Day training program on "Entrepreneur Development and Skill Training for Ripening Chambers." throughout the country. The course will be offered by National Centre for Cold Chain development (NCCD).

The training is aimed at Entrepreneur Development and skill training for ripening chamber and the support available from the government to set up fruit ripening chambers.

The workshop was successfully conducted in DHO, Fatehabad, Haryana, on 23rd & 24th February, 2016 in collaboration with DHO, Fatehabad, Haryana. The workshop was attended by the students, Faculties and the entrepreneurs and was a great learning experience for all.

PREPARATION FOR THE SESSIONS:

After receiving the approvals for conducting trainings from National Centre for Cold Chain Development (NCCD), we contacted DHO, Fatehabad, Haryana & related companies, agriculture universities and bank representatives to give wide publicity about the training program to the students.

The ripening unit in Anaj Mandi, Fatehabad were pleased to open their doors for the field visit and were also enthusiastic to share their entrepreneurial journey with the trainees. Mr. Prithvi Singh, Manager of the ripening unit respectively Co-ordinate effectively with the organizers to ensure participation by all concerned in the industry.

AGENDA: GENERATION OF EMPLOYMENT AND ENTREPRENEURIAL DEVELOPMENT;

The objective of the program was to:

- Create awareness about the entrepreneurial opportunities available in Ripening Chambers
- Develop Skill for ripening Chambers
- Train Human resources in banana ripening technology
- Educate the trainees about the harmful effects of Carbide ripened fruits
- Educate the trainees in real time conditions to give them hands on experience
- Promotion of standards, scientific procedures and best practices in banana ripening.
- Assist in providing employment opportunities to the trained candidates through our existing network of promoters of banana ripening chambers.
- Educate the potential entrepreneurs about
 - The financial viability of setting up a Banana ripening chamber.
 - The Technical standards on Banana Ripening established by NCCD.
 - New MIDH guidelines and financial assistance available
 - Financial assistance available from Indian Banks
- Provide feedback concerning future training needs, and participate in the design of annual training activities.

The prospective employers i.e.: ripening chamber owners allowed practical trainings in their facility and actively participated with the trainees, and clears the doubts of trainees during the practical session.

They have been registered in our database and will be in touch for the preparation of DPRs etc.

Actual employment generated will be monitored and reported to the NCCD
